## EDUCATION

### Universal Skilltech University

B.Tech in Computer Science

India

Sep 2024 – May 2028

## EXPERIENCE

### Software Engineering Intern

CollabCrewHub

Dec 2024 – Present

Remote

- Built a 3D-styled, futuristic, animated agency website to boost user engagement.
- Automated meeting scheduling with Calendly, cutting manual booking tasks by 60%.
- Built an AI automation product with Make.com, enabling one-click agency-wide automation.

### Full Stack Engineering Intern

growmyvyapar

Mar 2024 – Nov 2024

Remote

- Launched responsive, branded sites using TypeScript and Next.js.
- Developed AI automation tools and cross-platform products, streamlining key workflows.
- Optimized client platforms for performance, increasing customer engagement and retention.

### Software Developer Intern

economic Labs

Oct 2024 – Present

Remote

- Developed an AI-powered admin dashboard enabling prompt-based job descriptions and tags.
- Integrated Clerk OAuth for user authentication and tracking.
- Utilized Firebase Storage for managing user resumes and company assets like banners and logos.
- Implemented Prisma and MongoDB for efficient data management and scalability.
- Integrated Gemini AI API to generate dynamic content on the website.
- Developed a company data and leaderboard system using Shadcn UI, featuring filter and custom search options.

## PROJECTS

### Smart Event Portal — Next.js, Supabase, Clerk

e-cell-ustu.vercel.app

- Designed and developed a campus platform for students to view events and book tickets.
- Implemented personalized dashboards, real-time ticket generation, downloads, and cancellations.
- Leveraged Supabase for scalable data operations and Clerk for secure user authentication.

### Multi-Device Agricultural Export Engagement Platforms — Next.js, Custom CRM Integrationpania.techronixz.com

- Developed a responsive B2B website for an agricultural export business, driving global partner engagement.
- Integrated a dynamic contact form with the company's CRM, automating lead capture and sales tracking.
- Focused on high performance and usability across devices for seamless client interaction.

### 3D Animated Agency Site — Next.js, Shadcn UI, Material-UI, Make.com (AI Automation) collabcrewhub.com

- Built a 3D-styled, visually engaging agency website featuring advanced animations and interactive UI.
- Developed AI-driven automation tools with Make.com, enabling one-click workflow management for the agency.
- Automated meeting booking and core processes, cutting manual tasks and boosting team efficiency.
